This half term each year group will be allocated 1 full week to access our Forest School and Allotment area to limit cross contamination between bubbles.

During their allocated week Nursery children can come to school wearing old warm clothes suitable for the weather. Children will also need to bring wellies with them if they have not already got a pair in Nursery.

If your child has waterproof trousers or waterproof suits at home, they can also be brought into Nursery for your child to use during the week.
